3-7 February 2003
21-23 April 2003

Election of members of the Committee on Budget and Finance

Note by the Secretariat

1. At its 3rd meeting, held on 9 September 2002, the Assembly of States Parties decided that the elections of the members of the Committee on Budget and Finance would take place at the second resumption of the first session of the Assembly, to be held from 21 to 23 April 2003.

2. The Committee on Budget and Finance was established by the Assembly of States Parties in its resolution ICC-ASP/1/Res.4 of 3 September 2002. The terms of reference of the Committee are set out in the annex to the resolution.

3. The procedure for the nomination and election of the members of the Committee was set out by the Assembly of States Parties in its resolution ICC-ASP/1/Res.5 of 3 September 2002. In accordance with paragraph 6 of that resolution, each nomination shall specify how the candidate fulfils the requirements laid down in paragraph 2 of resolution ICC-ASP/1/Res.4, i.e., to be an expert of recognized standing and experience in financial matters at the international level from a State Party.

4. The distribution of seats among the regional groups for the purpose of the first election is established in paragraph 8 of resolution ICC-ASP/1/Res.5 as follows:

- Two seats for the Group of African States;
- Two seats for the Group of Asian States;
- Two seats for the Group of Eastern European States;
- Two seats for the Group of Latin American and Caribbean States;
- Four seats for the Group of Western European and other States.

5. As required by paragraph 9 of resolution ICC-ASP/1/Res.5, every effort shall be made to elect the members of the Committee by consensus, on the basis of a

03-30474S (E) 070403 070403

recommendation by the Bureau. Under paragraph 10, in the absence of a consensus, the election shall be a matter of substance, and subject to the requirements of article 112, paragraph 7 (a) of the Rome Statute, which provides as follows:

> "7. Each State Party shall have one vote. Every effort shall be made to reach decisions by consensus in the Assembly and in the Bureau. If consensus cannot be reached, except as otherwise provided in the Statute:
>
> (a) Decisions on matters of substance must be approved by a two-thirds majority of those present and voting provided that an absolute majority of States Parties constitutes the quorum for voting".

6. In accordance with paragraph 11 of resolution ICC-ASP/1/Res.5, the election shall be by secret ballot. However, this requirement may be dispensed with if the number of candidates corresponds to the number of seats to be filled or in respect of candidates endorsed by the respective regional groups, unless a delegation specifically requests a vote on a given election.

7. Under paragraph 12 of the resolution, the persons elected shall be those candidates from each regional group who obtained the highest number of votes and a two-thirds majority of States Parties present and voting, provided that an absolute majority of the States Parties constitutes the quorum for voting. As to the cadence of term of office for the members elected, the President of the Assembly shall draw lots for this purpose, as required in paragraph 13 of the resolution.

8. In accordance with the decision of the Assembly of States Parties taken at its 3rd meeting, on 9 September 2002, the period for the nomination of candidates was established to run from 1 December 2002 to 15 February 2003. Since only six nominations had been received at the closing date, the Assembly, at its 8th meeting, on 7 February 2003, decided to extend the nomination period until 7 March 2003 and authorized the President of the Assembly of States Parties to further extend the nomination period should an insufficient number of candidates be received by the close of the extended deadline. By 7 March 2003, four additional nominations had been received and one State Party had withdrawn its nomination. In line with the authority vested in him by the Assembly, the President further extended the nomination period until 21 March 2003. By the closing date, two additional nominations had been received, thus bringing the total number of nominations to 11.

9. Of the 11 nominations, three were made by the Group of African States; two by the Group of Asian States; two by the Group of Latin American and Caribbean States; and four by the Group of Western European and other States. No nominations were received from the Group of Eastern European States.

10. In accordance with paragraph 7 of resolution ICC-ASP/1/Res.5, a list in English alphabetical order of all persons nominated, with accompanying documents, is contained in the annex to the present note.

Fellow of the Association of Chartered Certified Accountants, United Kingdom; Fellow of the Chartered Association of Certified Accountants (FCCA), member of the Institute of Certified Public Accountants of Uganda.

Key experience

Graduated as a Certified Accountant in December 1979, in Great Britain, and joined the London office of Coopers & Lybrand (now known as PriceWaterhouseCoopers) in February 1980. Obtained extensive international and regional experience having worked with the firm (Coopers & Lybrand) in the London office for two and a half years, seven years in the Zambian office, then thereafter three years with the Lilongwe (Malawi) office. Was a partner with Coopers & Lybrand beginning in 1987 while with the Zambian and Malawi practice. The main tasks were to provide technical direction relating to the audit, company secretarial and taxation affairs of companies in both public and private sectors. The companies included financial institutions, farming estates, parastatal organizations, multinational corporations, local manufacturing and service industries. The responsibilities included ensuring the maintenance of professional, technical and management skills of senior staff and developing appropriate standards of professional work. After I returned to Uganda in 1994 and took up a consultancy

assignment on the World Bank project and became attached to the Treasury, my experience broadened to encompass those accounting disciplines and skills pertaining to central and local government. As a consultant on the World Bank project since 1994, I have held line positions within government and headed the portfolio of the Directorate of Accounts, and represented Uganda as the Accountant General internationally.

Career history

As the Auditor General of the Republic of Uganda, my responsibilities have mainly been to effectively implement the Constitutional provision of article 163, which requires the audit and annual report on the public accounts of Uganda and all public offices including the courts, the central and local government administrations, universities, public corporations and such bodies as established by an Act of Parliament. The Auditor General is a constitutional office whose appointment is by the President of Uganda with the approval of Parliament and has a staff of 350 people of whom the larger proportion are technical staff spread out over the regional offices in Uganda.

Staff training and development was a constant feature as technical input at the most appropriate time enhanced efficiency and quality of the final product. Between 1966 and 1973, did a number of certificate and upgrading courses while trying to identify a career to undertake. Finally, seriously embarked on studies in company secretaryship and accountancy in 1973.

Professional qualifications

Qualified for and admitted to associate membership of the Institute of Chartered Secretaries and Administrators of the United Kingdom in 1978.

Qualified for and admitted to membership of the Chartered Institute of Management Accountants of the United Kingdom in 1983 as Associate and in 1993 as Fellow.

Admitted to membership of the Zambia Institute of Chartered Accountants as Associate in 1984 and as Fellow in 1994.

Work background

Currently I am working as Accountant General of the Government of the Republic of Zambia. In this capacity I am responsible for providing an accounting and financial management service. My role is epitomized in the mission statement of the Department of the Accountant General's office as follows:

> "To ensure effective, efficient and economic utilisation of public funds for the enhancement of citizenry quality of life."

Prior to taking up the appointment of Accountant General on 1 December 2001, I worked as Secretary and Chief Executive of the Zambia Institute of Chartered Accountants, a statutory body established by an Act of Parliament to regulate the accountancy profession in Zambia. The institute is run by elected members of Council.

During my stay at the Institute as Chief Executive I strengthened management by designing job descriptions which gave needed direction to members of the staff. Conditions of service were codified, budget preparation and keeping of books of accounts improved tremendously, controls were enhanced and the Institute showed significant growth in both membership and cash holdings.

The challenges I left to my successor were to increase the size of the Institute, localize all professional examinations for accountants and maintain ethics in the accountancy profession.

From 1 August 1989 to 30 April 1998, I worked for Zambia Consolidated Copper Mines Ltd (ZCCM) as a financial controller in divisions and subsidiary companies.

Due to the reorganization of ZCCM to reflect its new role as a post-privatization investment company my position was no longer relevant to the company's labour requirements at Operations Centre and I was laid off on 30 April 1998.

I finished my secondment to Scaw Ltd as Head of Finance on 20 March 1998 after a very successful privatization. I was seconded by ZCCM on 20 May 1997 to strengthen the Senior Management Team tasked to transform the company and prepare it for a successful privatization. This particular privatization has been a high point in my career in that it demonstrated that there are still Zambian managers in the country who can work conscientiously while a company is earmarked for privatization. The company, which was nearing collapse in May 1997, was financially in a stronger position in March 1998 at the time of privatization. The Board of Directors of Scaw Limited showed their appreciation of my performance and directed the Chairman to write to me (as per the Scaw Board Minutes of 19 February 1998) as follows:

> "... The Directors noted with appreciation the exemplary manner with which you performed duties of Finance Manager of the Company ... On behalf of the Board I wish to extend my sincere gratitude to you for this exemplary effort and the manner in which you performed your duties while on secondment at Scaw Limited."

From July 1995 to December 1996 I was seconded by ZCCM to Mulungushi Investments Limited (MIL) to work as Group Financial Controller and Company Secretary. During the period of my secondment the group comprised six engineering divisions and a farming division of 12 farms. The company had already been earmarked for privatization and I was involved with the privatization which entailed privatizing the engineering divisions and the farms individually and finally placing MIL under voluntary liquidation in September 1996. I remained with MIL until December 1996, after which I returned to ZCCM. Privatization of the Mulungushi divisions provided unique challenges and as Company Secretary I was involved in examining and signing the privatization paperwork on behalf of ZCCM and MIL.

Prior to being seconded to MIL I was Head of Finance at Luanshya Division (1989-1992) and Nchanga Division (1992-1995). Nchanga, the biggest of the ZCCM operating divisions, consisted of about 10,000 employees, of which 130 were in the Finance Department, and had an annual operating budget of US$ 265 million, which I coordinated. I was the Chief Finance Officer (Finance Manager, Financial Controller) of a ZCCM operating division or subsidiary. I was responsible for the administration of the Finance Department, which provided accounting services to all departments in addition to providing management accounting reports to monitor divisional performance against budgets. I was also responsible for maintaining effective reporting systems of materials consumption (materials accounted for 60 per cent to 70 per cent of total operating costs).

In addition to accounting functions, I supervised the Head of Information Technology and the Divisional Secretary. I was expected to put in place accounting systems which focused on management performance and at the same time provided internal controls.

Other work background information

Between 1983 and 1989, I worked for a private company as Chief Accountant (1983-1989) and as General Manager (1987-1989). The company was engaged in transportation, farming, manufacturing of packaging materials, wholesale and retail shops, maize milling and property development. The group enjoyed strong growth at the time I served it. My success in the company created its own problems. I was required to relocate, much to the disadvantage of my family. I decided to resign and rejoin the mining industry as this was going to give me an environment of stability for my family.

Between 1978 and 1983, I worked for ZCCM as a Senior Accountant before resigning to join the private sector to experience the working environment of private owners-driven business.

Between 1977 and 1978, I worked as Assistant Chief Accountant in a parastatal trading company. I resigned in order to join ZCCM, which was offering excellent training and good future job prospects with good remuneration at the time.

Between 1968 and 1977, I worked in local government, where my career started. I joined as a trainee Accountancy Assistant and ascended to the position of Town Treasurer at the time of leaving. I resigned in order to join the commercial sector, which appeared to offer more exciting job prospects and remuneration at that time.

With the above background, I can confidently state that I have a sound understanding of financial, human resources and general business management. It will be noted that my progression in the accountancy profession has been gradual. I have covered virtually every job, from that of an Accounts Clerk recording invoices to Financial Controller preparing Board level papers, and Chief Executive responsible for planning, organizing, directing and controlling organizations.

Notable milestones

1992	Attended a four-week management course at Ashridge Management College, United Kingdom.
1987	Represented the Zambian business community at a two-week United Nations Economic Commission for Africa seminar in Moscow, having been nominated by the Chamber of Commerce.
1989-1995	Was a member of ZCCM Staff Development Panel and the Accountancy Training Advisory Committee.
1994-1997	Was a member of Council of the Zambia Institute of Certified Accountants and was Chairman of the Disciplinary Committee for Affiliates.
1998-1999	Member of the Zambia Branch of the Chartered Institute of Management Accountants.
2000-2001	Member of Council of East, Central and Southern African Federation of Accountants.
2001 to date	Member of the Executive Committee of the East and Southern African Association of Accountants General. I am the serving Chairman.

Some specific areas of interest

My pet obsession in my work is "linking finance to operations is real key to wealth creation".

- Under this theme I try to link the operations of an organization to wealth creation no matter whether I am looking at a profit-making or non-profit-making organization.
- Under the theme of "linking finance to operations is real key to wealth creation", I have been involved as a trainer of operations, accounting and management personnel.
- I believe that accountants must understand operations. Business managers also must understand finance, otherwise they will be working under an unnecessary handicap. Employees who link their jobs to wealth creation at least understand why they are employed.

I have a keen interest in staff development. I believe that young accountants must be given exposure beyond the organizations they work for.

Local government and public-sector organizations are big spenders of funds, and also big revenue collectors; however, sadly they lack qualified accountants. This is an area where I feel I will make a significant contribution while serving the public service: I am totally committed to improving public expenditure management and financial accountability in government.

My strengths

I have a very stable family in whose education I have invested modestly. This is paying off. All my four children are adults with reasonable education.

I have maintained a high level of personal and professional integrity. My ethical values are strong and I can stand with my head high anywhere, so far.

I am technically qualified to handle any financial management, company secretarial and any general assignments, being a Chartered Accountant, Chartered Secretary and Administrator.

My varied and long years of experience have exposed me to high-level management. I am able to work with and lead a multidisciplinary workforce to achieve the common goal of wealth creation.

My stay at Mulungushi Investments Limited consolidated my knowledge of company secretarial practice and also gave me the confidence to work at the highest level possible as I had direct responsibility to the Board of Directors. The job at MIL was a total job in that as Financial Controller and Company Secretary, I advised the Board on matters of finance and company administration. As Chief Executive of ZICA I learned a lot about organizing and getting results, and I succeeded.

Conclusion

With the above varied experience and exposure, I believe that I have reached a level where I can handle managerial work (with appropriate technical support) independently without a need for any supervision.

I recognize that learning is a never-ending process and I am prepared to learn and keep up to date; therefore, any of my weaknesses can be overcome.
